**The Corporation of the Municipality of West Grey**

June 21, 2017

To West Grey Stakeholders:

## **Re: Natural Gas Service Extension into West Grey**

As has been reported in the media, Union Gas is currently preparing a grant application for the Municipality of West Grey, to extend natural gas service to Neustadt and Ayton.

We know the positive impact natural gas service will have on the community – lower energy bills, reliable service, and the economic development potential of natural gas service.

As Union Gas prepares this application, any letters of support (from local business associations, employers, hospitals or care facilities, etc) indicating the tangible, measurable impact natural gas service would have on their business will help strengthen this grant application.

I am asking you today, to take a moment to write a letter of support expressing how natural gas service will help to power your business, reduce energy bills, or achieve a demonstrable impact of any kind.

**Please send to [jdurham@uniongas.com](mailto:jdurham@uniongas.com)  
before July 15, 2017 deadline.**

Thank you for your support in advance.

Respectfully,

Mayor Kevin Eccles
