Hello – to whom it may concern:

In 2009, John Serré was employed with the Burlington's Sound of Music Festival for 7 months under a Job Creation Partnership project. I found him excellent to work with.

Having no Festival office, John was required to work out of his residence and therefore time managed his assignments. Among these assignments were manuals and procedures along with key activities at the Festival. The work was detailed and exceptionally, professionally presented. John's creativeness and love of music is obvious however he supports this very well in the business side in areas such as marketing and media. The Festival benefited from this combination.

I believe this demonstrates only a small part of his skills and benefit to our organization.

If you require any further information on this recommendation, feel free to contact me.
